

## COMPROMISE BILL THEIR ONLY HOPE

Senate Will Not Pass the  
Assembly Primary Elec-  
tion Measure.

## SUBMIT IT TO A VOTE

Bill Allowing the People to De-  
cide Would Go Through  
Upper House.

## OSTEOPATHY BILL HUNG UP

Madison, Wis., March 23.—The primary election bill is up to the senate. It will reach that body in a message from the assembly on Monday noon and will probably be referred to the committee on privileges and elections there. When or in what shape it will come back from the committee is somewhat uncertain. There is but little doubt but that the majority of the committee will report in favor of the bill as it passed the assembly, but there is likely to be a minority report which will be different. It may be that the minority will report in favor of a substitute bill which has been prepared by Senator Gaveny and which provides that the primary election shall apply to all elections in the state except those of state officers, and that the state ticket shall be selected at a convention of the delegates to which have been chosen through the medium of a primary election. There is also a possibility that the minority of the committee may report in favor of submitting the primary election to a vote of the people, the amendment which Assemblyman McCabe tried to secure in the assembly yesterday just before the bill passed. This compromise measure would pass the senate, possibly unanimously, but the supporters of the bill are not willing to listen to the proposition. They express great confidence that the bill will pass the senate in its present form, but the opponents of the measure declare that if the senate does not kill the bill altogether, it will make some material amendments. Apportionment Bill Next.

The primary bill has overshadowed everything else in the assembly this week, and but little or no attention has been given to any of the other important measures. Even the apportionment bill, which went to the third reading in the assembly, attracted very little attention compared with the history of similar measures in the past. The bill apportioning the state into senatorial districts is not likely to create as much trouble as did the assembly bill, and if reports are true it is even now practically arranged. The committee will meet some time next week, when plans for the senatorial districts will be submitted and an effort will be made to get the bill before the senate either Thursday or Friday of next week.

Then the congressional apportionment will be taken up, but if Senator Whitehead's plan is adopted it will not be seriously considered until all of the other business has been disposed of. He believes in business first and politics afterwards, and proposes that the congressional apportionment be postponed until the last week of the session, after all of the other bills are out of the way.

Osteopathy Bill Hung Up.

Reports were expected this week on the anti-cigarette and osteopathy bills

but both are still in the hands of the committees. The state judiciary committee which has the anti-cigarette bill in charge, has been waiting for Gil E. Roe to make his argument on the legal questions involved. Mr. Roe arrived from New York in the middle of the week, but his time thus far has been devoted to opposing the bill which would make telegraph companies liable in damages not to exceed \$500 for mental anguish caused on account of delay in delivery of a message.

The cigarette bill will probably be taken up by the committee on Tuesday afternoon. It will hear arguments only on the legal phase of the bill.

The assembly committee on health and sanitation is hung up on the osteopathy bill. For many weeks Mr. Esau has been unable to meet with the committee, on account of illness. The other four members are evenly divided—two for the bill and two against it. Probably the measure will be reported back without recommendation.

Mr. Roe's bill defining any drink containing one per cent. of alcohol "intoxicating liquor" within the statute is in the same shape.

**Mileage Book Bills.**

The assembly railroad committee will have a contest next week over the two cent fare and transferable mileage book bills. There is a good chance for the passage of some one of these bills or a substitute thereof which will compel railway companies to give a lower passenger rate. The anti-pass law has put the legislators in a more receptive mind as to the question of rates for railway transportation, and the proposed bill will at least have a larger support than have the several similar bills introduced at previous sessions.

**Identified the Suicide.**

New York, March 23.—It became known today that the woman who committed suicide in the Harlem boarding house yesterday was probably Mrs. Lillian B. Robertson, wife of a Chicago tailor and not the daughter of Millionaire Thomas Lowry of Minneapolis as reported. The latter is in Baltimore.

## COLORED BRUTE IS HUNG IN ARKANSAS

Arkadelphia, Ark., March 23.—Two thousand people cheered this morning when John Westly, the colored rapist of Mrs. Graves, Mrs. Bullard and a seventeen year old girl at Malvern, December 1899, was put to death by hanging. He struggled violently as the drop fell, getting his hands loose and attempting to loosen the rope. He died of strangulation fifteen minutes later. This was the first execution under the new law prohibiting public hanging.

**The Babcock Medal Presentation.**

The committee who have in charge the presentation of the medal awarded by the last legislature to Dr. S. M. Babcock of the university announce that the exercises will take place in the assembly chamber on March 27th at eight o'clock. Both branches of the legislature will assemble in joint session. Gov. La Follette presiding. Among the speakers present will be Prof. Henry, Senator Kreutzer, Assemblyman Hall and ex-Governor Hoard. Ogden H. Fethers will present the medal.

No invitations will be sent out by the committee the interested public being cordially invited to attend the exercises.

Mr. and Mrs. W. W. Porter have gone to West Baden, Ind., where Mr. Porter will take treatment for his health.

## AMERICAN A TYPE HARD TO BEAT; HE IS NOT SO CRANKY AS THE BRITON

Andrew Carnegie Talks of Trusts and Combinations  
—They Are the Tendency of Our Age and Will  
Be Beneficial—Tariff a Back Number.

London, March 23.—Mr. Carnegie came up from Southampton yesterday and took up quarters at the Langham hotel.

"Was the steel trust a surprise even to you?" he was asked.

"I did not expect an opportunity to retire so soon," Mr. Carnegie answered. "It came unsought."

"Do you approve the principle and commend the machinery of trusts like the United States Steel Corporation?"

"Consolidations and enlargements," Mr. Carnegie explained, "are the tendency of our age and will prove beneficial."

"What advantages will the citizens of the United States as a body get out of this monopoly?"

"It isn't a monopoly."

"May not the existence of trusts tend towards the national bankruptcy and prove a decisive step toward a system of state socialism?"

"The man behind the trust is just as important as ever."

"With trusts ruling the principal businesses in the United States, what would be the life chances of Andrew Carnegie if he were landed in New York a penniless boy tonight?"

"As bright as in 1848 and with even a wider field," replied Mr. Carnegie.

"May not the individuality of some men wreck trusts?"

"The American is not so cranky and individualistic as the Briton. He is a fair, reasonable man, easy to cooperate with and a more easy man than the 'little island' Briton."

"Is free trade likely to emerge from monopoly?"

"The tariff is a back number in many things, having done its work, but where it is needed you may rely upon it that it will be freely imposed."

Replying to further question, Mr. Carnegie said: "When England learns to take full advantage technically and intelligently she may retain her lead as far as Europe goes, but to lead the American mechanically and in business is another story. I believe climate conditions would prevent that. I find myself more sweetly contemplative when in Britain, but far more energetic when in America."

"The American is just as steady and sober as the Scotsman with his coat off and sleeves rolled up—a type very hard to beat."

## MILWAUKEE MUSIC STORE IS BURNED

William Rohlfing & Son's Place on  
Broadway Totally Destroyed—  
Loss Over \$25,000.

Milwaukee, Wis., March 23.—The music house of Rohlfing & Sons, Broadway, was destroyed by fire at 10 o'clock last night, causing a loss of \$225,000, which is fully covered by insurance. The building and stocks, the latter consisting of four floors covered with pianos, brass and other instruments are a total loss. The building which was a five-story structure was aflame from top to bottom within three minutes from the time of its discovery.

The Sentinel building, which is sixty feet to the north within the same block, had its second close call within a month, and was given a severe test. Iron shutters, however, kept the flames out of the editorial rooms on the ninth floor, but all of the windows were cracked. Publisher Warren ordered every one out of the building when it seemed to be doomed, and it was fully an hour before work could be resumed. Flames caught in the proof room which is located on the tenth floor and did some damage.

The Herold building which was burned a short time ago, has been rebuilt, and this was saved only by the most heroic efforts of the fire department.

## LAUNCH LARGEST SHIP EVER BUILT

Pacific Mail Steamer Korea Will Carry  
1500 Passengers and Cost  
Over Two Millions.

Newport News, Va., March 23.—Before thousands of people the Pacific mail steamship Korea, the largest ship ever built in this hemisphere, was successfully launched at eleven o'clock this morning in the yard of the Newport News ship building company. Miss Katherine Tweed, daughter of the president of the Pacific mail, christened the vessel which will ply between Frisco and the Orient.

Governor Tyler and staff witnessed the original dip. The Korea has a displacement of eighteen thousand six hundred tons and her contract speed is eighteen knots and a capacity of fifteen hundred passengers. She cost two millions of dollars.

**Accept Invitations to Church.**

Canton Janesville, No. 9, Patrick's Militant, the uniform rank of Independent Order of Odd Fellows, has accepted an invitation from Rev. Walter A. Hall to attend divine service at Court Street, M. E. Church on the morning of Easter Sunday. The members will wear the full regalia of the order.

W. H. Sargent Post No. 20, G. A. R. will attend services at the Congregational church on Memorial Sunday, May 26. Having accepted Rev. R. C. Denison's invitation.

**Y. M. C. A. Men's Meeting.**

Every man in the city is urged to remember that a pleasant and profitable hour can be spent at the men's meeting at the Y. M. C. A. building, tomorrow afternoon at 2 o'clock. There will be the usual good music and interesting talks. S. D. Conant will be the principal speaker of the afternoon.

## BABCOCK TO PUSH TARIFF REFORM

Besides Iron and Steel He Will Intro-  
duce Bills to Reduce Duties on  
Tin Plate and Plate Glass.

Washington, March 23.—Chairman Babcock of the republican congressional committee said today that he will not only re-introduce the bill to remove the existing duties on iron and steel which he offered shortly after the announcement that the billion dollar trust had been successfully formed, but he will also introduce bills repealing the duties on tin plate and plate glass.

Mr. Babcock claims to be sincere in his determination to force tariff reform. He says that it is a subject which the republican party must deal with in this era of gigantic combinations of capital and deal with it in a manner that will leave no doubt in the minds of the people that it is acting in good faith.

Otherwise the people will sweep the republican party out of power.

As a matter of fact the beneficiaries of the tariff, especially those who have been successful in selling their products in foreign markets, are willing to surrender the supposed advantages which they enjoy under the Dingley tariff law.

The great lumber interests, the farm machinery manufacturers, the manufacturers of railroad and building steel and many others have reached that phase of world competition where they are led to doubt the desirability of maintaining the existing high tariff.

## NOISE OF FLAMES IS LIKE THUNDER

Big Bush Fires Prevail in Some Parts  
of Australia—Many Lives  
Have Been Lost.

Victoria, B. C., March 23.—Big bush fires have prevailed in Australia, according to news brought by the steamship Miowera, the worst being at Mirrie settlement, which was devastated. Not only were some twenty homesteads destroyed, but many lives are said to have been lost. The noise of the coming flames was said to have been like thunder and the sky was darkened by clouds of smoke. There were many thrilling escapes, one woman and her son having been caught by the flames under a wagon on a bare road, and although the wagon and contents were destroyed, they were unhurt.

## GRIGGS HAS SENT HIS RESIGNATION

He Will Retire from President McKin-  
ley's Cabinet on March 31, as  
Attorney General.

Washington, D. C., March 23.—Attorney General Griggs has sent his resignation to the president. It is to take effect March 31st. The appointment of a successor will not be announced for several days.

County Superintendent: David Throne of Beloit is in the city conducting examinations at the high school building. Only four ladies wrote on the examinations today.

## BRYAN CHALLENGES CLEVELAND

Offers \$5 Reward for Statement of  
Genuine Democratic Principles.

Lincoln, Neb., March 23.—To-day's issue of William J. Bryan's paper, The Commoner, contains an article on the first page entitled "A Reward." It is an attack on Grover Cleveland for a letter written by the ex-president recently in which he appeals to democrats for a return to the principles of true democracy. Mr. Bryan calls upon the ex-president to suggest the principles and platform upon which the reformed democracy shall stand, and continues:

"A reward, therefore, of \$5 is offered for a written statement, not to exceed 500 words, signed by Mr. Cleveland, applying democratic principles, as he understands them, to at least five of the questions now before the country. The offer is open to him or to any one who can secure such a statement from him. If the statement does not cover five questions a proportionate reward of \$1 will be given for each question covered."

"An additional reward of \$1 will be given for a written statement, signed by Mr. Cleveland, explaining why he considered his opinion on public questions of no importance during the recent campaign, but regards such opinion as important now."

## NIHILISTS ACTIVE ALL OVER RUSSIA

They Have Determined Not to Try to  
Kill the Czar But His  
Ministers.

London, March 23.—A dispatch from St. Petersburg states that the recent disturbances in Russia have been quelled for the time being. This is however, no abatement of the causes which led to the agitation. The attempt to organize the revolution has proved futile, but on the other hand there is an alarming revival of Nihilism. It is stated that the Nihilists recently decided to make no direct attempt against the czar but to kill his ministers.

## HEALTHY PERSONS ONLY CAN MARRY

Senate of the Minnesota Legislature  
Has Passed a Marriage Bill  
Something Like Stout Bill.

St. Paul, Minn., March 23.—The senate has reconsidered and finally passed Senator Chilton's bill prohibiting the marriage of insane, epileptic and idiotic persons, and requiring a medical certificate of all applicants for marriage licenses. Amendments were adopted making the physicians' certificate not quite so sweeping, and to permit marriage of any feeble-minded person over 45, the bill originally having extended such permission only to women. The bill passed by a vote of 24 to 17.

## BRITISH SCORED A BIG SUCCESS

Bloemfontein, March 23.—The British have scored a big success in the fight against Commando Fourers. Two hundred Boers were taken prisoners, and ninety five thousand sheep and five thousand horses captured.

## Small Pox Raging at Peking, Ill.

Special to the Gazette.

Peking, Ill., March 23.—The rapid spread of smallpox has caused the board of health to order all schools closed indefinitely. Fifty cases are reported.

## Sandy Dingwall is Resting Comfortably

New York, March 23.—Theatrical Manager Dingwall, who was shot by Robert Moulton, is resting comfortably this morning and will speedily recover. The actress, May Buckley, whose favor Moulton has sought for a long time, has issued a statement that Minnie Seligman was not the party in the restaurant at the time of the shooting.

## Bryan Blocks Thompson's Plans

Lincoln, Neb., March 23.—The republicans claim that Bryan last night blocked Thompson's plan to being elected for a short term senatorship through the absence of thirteen fusionists who generally go home over Sunday. It is claimed that he pleaded with them not to allow the deadlock to be broken in that manner.

## It Will Only Embitter Russia

London, March 23.—The Saturday Review says regarding the dispute with Russia: "Because of the fatal lack of a guiding principle we have alternated between churlish resistance and timid concession. It is obvious if this course is adopted at Tien Tsin we will only embitter Russia and we will lose prestige with the world." The paper thinks that the conquest of Manchuria should be acknowledged by England but any further advance must be resisted.

## Martial Law Rules in St. Petersburg

St. Petersburg, March 23.—The high official who was shot at on Thursday and whose name was not given, was Procuror General Probedonostzew of the Holy Synod of the orthodox church, secretary of state, and member of the senate and private councillor. He was active in the proceedings to excommunicate Tolstoi. In view of the disturbances St. Petersburg is under military guard and any meeting or gathering in the streets and public places is prohibited under penalty of five hundred rubles or three months.

## A SEALER RUNS INTO AN ICEBERG

Two Hundred Men Face Death on a Ship on the  
North Atlantic—Twenty of Crew Hurt.

St. John's, March 23.—Two hundred hunters on the seal ship Iceland, barely escaped death a week ago Monday night in the mad race between the different boats to strike the seal herds first. The Iceland drove along at a good speed through blinding snowstorms, and crashed into a huge iceberg, bow first. At the time of the collision all hands were on the alert, hoping every moment to hear sounds from the seals. It was impossible to see through the falling snow. The impact with the iceberg shattered the jib boom and the bow sprit, and threw down the topmast, dismantling the forepeak.

**Shattered Ship Springs a Leak.**

The whole fore part of the ship was shattered to fragments, and the deck beams were hurled back over the stern. The engines were disabled, the ship sprung a leak and it was feared she would be foundered. The whole crew was prostrated, several having broken limbs, and twenty in all being more or less injured. Huge fragments of ice toppled from the top of the ice-

berg upon the deck of the vessel, thus doubling the danger, and the whole mass of ice threatened to fall and overwhelm the ship.

**Mad Scramble for Boats.**

The men tried to launch boats, but the ropes were frozen, and when, after a wild scramble, the boats were lowered, they proved inadequate for the whole crew. Cooler heads at this juncture took command, and the pumps were manned, the forepeak examined and distress signals fired. Other vessels stood by to rescue the crew. Temporary repairs enabled the Iceland to keep afloat and continue fishing, with constant pumping. Subsequently the Iceland followed the course of the other ships, and caught 10,000 seals.

**Sixty Almost Starve on a Floe.**

Seal fishing this year seems to be attended with unusual danger. A few nights ago the Aurora's crew of sixty men almost perished through getting adrift on an ice floe. They were finally rescued after burning everything they had with them, even part of their clothes, to keep warm.

## JUST BETWEEN OURSELVES.

This is to be my Saturday night corner where I am to chatter at you every week and you are to have no redress, not even the liberty of talking back. It is rather a one-sided affair, I know, but you have one satisfaction—you do not need to listen. If you do not like what I say, if you do not consider it "worth while," you can quietly ignore my corner and run no risk of being thought rude for I shall never know. There are to be no rash promises concerning the nature of what is to be told in this column, in strict confidence, for it is as liable to be grave as gay, frivolous as serious, and it is dollars to doughnuts that we shall seldom agree.

Just now, like many other people, I am full of the prospective library building. It is my constant companion. I ride with it in the street cars, listen to it on the streets and in stores, swallow it with my meals and wander with it in dreamland at night. To the women of the city, the matter of a location is of comparatively little consequence—the city is not so large that any site near its business part will be inconvenient. Deep down in every feminine heart, however, especially if the heart belongs to a club woman is a burning desire which is scarcely permitted to tremble on the lips. The club women of Janesville want a club room in the new library building—a room that shall be accessible to every woman's study club in the city as a meeting place. At present there is no place in the city suitable for the work of the study club. Rooms in private houses are too small and are not centrally located, secret societies halls are too large and are cheerless and poorly heated as a rule and the Janesville woman who wishes to keep abreast of the times and to improve her mind by work in a study club, must do so at great disadvantage.

The study club is one of the most potent educational powers of the present time because it influences the adult whose education was either neglected in youth or secured under the narrow, self-centered and unprogressive system which held sway until the last decade of years. As an educational force it is barred out of the schools because of its age but its existence should be fostered and encouraged by the city which is sure to benefit by its progressive influence. This encouragement can now be given.

The club women do not claim this as a right but there is a large element of justice in it after all. It is to

the club women that all progressive and educational movements for the city's good make their appeal. It was the women of the Janesville Art League who started the artistic decoration of the school room walls and it is largely by the women that the work is being carried on. Two years ago the Woman's History club sent out a circulating library which was pronounced at Madison the finest and best selected one ever sent out in the state. Just a day or so ago the Athena class voted a sum of money toward another circulating library. Scarcely a year ago every woman's club in the city voted money and the members gave many hours of service towards the Herculean task of making the present library quarters attractive. It was largely through the influence of the club women that the wonderful children's room was established.

It is to these same women that all appeals will be made when there is to be library work done without remuneration. Already they have done much for the library, which owes its very existence to the loyal women whose efforts kept it here. If aught of dependence is to be placed in the signs of the times, library work is but just begun for the club women of Janesville. Is their desire for a work room an unreasonable one?

If the new library is named after our Scotch benefactor, what are you going to call it? Of course you know how to spell him but do you know how to pronounce him? Carnegie looks easy enough, but conversation with a few people will reveal a variety of pronunciation that is astonishing. Carnegie and Karnagy, with the accent on the second syllable and soft g's, are forms occasionally run across and they are slightly varied by transferring the accent to the first syllable.

I have even heard all the stress put on the last syllable and these five forms are doubled by people who give the g the hard sound instead of the soft. Personally, I have wondered how mortal man could come to choose such awkward ways of twisting their tongues when the name slips off so easily and in such aristocratic style with the accent on the first syllable and a hard g. Alas for arrogant pride! Our friends of the Rock County Caledonian society, and they are surely authority, say that Andy will recall his gift if we do not mend our ways, give all out attention to the second syllable, pronounce the e like a and forget that g can ever sound like j. In short, according to the Scotchmen, it is Kar-nagy. L. F. B.

## THE ART SECTION OF THE ART LEAGUE

The art section of the art league met with Mrs. W. H. Ashcraft on Friday. Mrs. F. A. Capelle presided and Mrs. Walter Helms acted as secretary in the absence of Miss Ida Harris.

Mrs. Noyes read a paper on the Uffizi palace of which Vasari was the architect and which was built by Cosimo I. It was designed for two purposes to hold the treasures of art gathered by the Medici family and to contain the jubilee offices. Its noble exterior, great marble staircases and marble pillars are a fitting setting to the art within.

Mrs. Murdock treated of the portico between whose arches stand the statues of the illustrious great men of Florence, Da Vinci, Dante Boccaccio, Galileo, Giotto, Angelo and many others. This portico is rich in memories of people and of scenes enacted here.

Mrs. Mills gave a paper on the Uffizi Galleries illustrated with a plan of the same and many fine reproductions of its pictures. There are here over 1,300 paintings and 1,800 original drawings, besides busts and statues, gems, medals, cameos, bronzes, vases and other valuable curios. The Hall of Portraits, Niobe Room, Cameo room and Hall of Inscription were spoken of especially. The Tribune with its gilded ceiling, mosaic pavement and altar with mother of pearl, contains the masterpieces, the Statues of Venus and the Wrestlers, the Madonnas by Raphael, besides others by Angelo, Carreggio and Titan are here. The discussion of current events closed the session.

## BAPTIST CHOIR BOYS GIVE A MUSICAL

The Program Was of Rare Excellence and Was Thoroughly Appreciated by a Large Audience.

The large audience that attended the musicale given for the benefit of the boys' choir of the Baptist church last evening was evidence of the fact that these youthful vocalists have a host of friends. Probably the church parlors were never called upon to accommodate a larger or more appreciative audience.

The musicale was given under the direction of Mrs. S. T. Learned of Fort Atkinson, who has charge of the music at the Baptist church and is the organizer and director of the boys' choir.

The program was one of rare excellence, although the whistling of Miss Sue Carter of Milwaukee was somewhat of a disappointment. There was but little music to the tones and her breath failed her at critical places. She seemed to delight the younger portion of the audience and responded to encores after two of her solos.

The boys' choir gave two choruses on the program, "Alive Evermore," by Geibel, and a bell chorus. The choir is composed of about twenty young boys and their fresh sweet voices made the choruses very acceptable numbers. After the second selection they were compelled to respond to an encore and they gave a Christmas song, James Roberts singing the solo part very sweetly.

Mrs. S. T. Learned, who is acknowledged as one of the finest vocalists in the state was charming in two solos. Her first selection was a double number, including "Oh, That We Two Were Maying" and "Raft Song," both compositions by Ethelbert Nevin. For her second solo she gave James Rogers' dainty song "At Parting" in which her beautiful and perfectly trained voice was so exquisite that she was compelled by insistent applause to repeat the selection.

One of the finest numbers of the evening was the vocal duet, "Noonday Heat Is Long Past Over," by A. Goring Thomas, sung by Misses Elizabeth Palmer and Franc Edwards. Their voices blended exquisitely and very effectively.

Another of the rare treats enjoyed by the audience was the selection, "Birds in the Night," by Sullivan, given by the Ladies Quartet, consisting of Miss Elizabeth Abbott, Mrs. Learned, Miss Palmer and Miss Edwards.

The combination of these four voices made one of the best ladies' quartets that has been heard in this city in many a day and their singing was delightful.

Equally pleasing was the singing of the male quartet consisting of E. A. Folley, E. E. Van Pool, H. E. Cary and Archie Crawford. Their selection was a spirited hunting song and for an encore they sang a catchy negro lullaby.

The duet, "I Live and Love Thee," by Campana, was rather a novelty to a Janesville audience in that it was sung by Mrs. Learned and Master James Roberts. Master Roberts is the happy possessor of a voice of unusual sweetness and he sings very well for one so young. He acquitted himself with credit in the difficult duet and his voice blended well with the cultured tones of Mrs. Learned.

The instrumental part of the program included only two numbers, a well rendered trombone solo by Chester Parish and a piano solo, "Sacotala," by Bendel, which was exceptionally well rendered by Miss Cora Veve Shoemaker. This young lady possesses marked talent as a pianist and the applause which greeted her selection was so insistent that she was forced to respond.

Mrs. Clarence L. Clark was the accompanist of the evening and presided faultlessly at the piano for the vocal numbers. Miss Carter, the whistler, played her own accompaniments.

"Try a package of Mrs. Austin's Wheat Food" for breakfast, delicious for dessert, sure to delight.

## Addresses by Laymen.

The addresses by laymen that are proving so interesting and instructive will be continued in Christ church tomorrow night. The subject and the speakers are as follows:

## AMUSEMENT NOTES

The Peoples' Players assisted by a very fine orchestra appeared before a fair sized audience at the Myers Grand in the "Inside Track" last evening. The play was of the melodramatic order and was quite capably presented. The music of the orchestra found high favor with the audience and was by far the best feature of the performance.

This afternoon the company gave a matinee, presenting Faust as the bill. Tonight the engagement will close with the laughter provoking comedy farce, "Duffy's Jubilee."

The old time favorite, "Uncle Josh Spruceby," will be at the Myers opera house Tuesday, March 26. This popular play is now in its tenth successful season. The charm of the play is in its rustic simplicity. The scenes are taken from Vermont rural life, and the character of Uncle Josh as the honest old farmer is true to life. The story is told in a manner that is irresistible. Mr. Levis has staged the piece in splendid shape and it affords ample opportunity for displaying the startling mechanical effects which are introduced. Thirty-five people are in the company. A big parade and band concert is given at noon by the splendid concert band which is carried by the com-

pany.

Ben Hendricks in the famous original Swedish-American comedy, "Ole Olson," will be seen here soon. In his interpretation of the big hearted, good natured, honest Swede who "just cum over," Mr. Hendricks has added to American stage personality a type of character so pure, so original and entirely different from the many other types of which play goers have long since tired, that his characterization has gained for him a foremost place amongst America's favorite comedians.

Theater goers are anticipating with more than ordinary pleasure the presentation of Anthony Hope's charming romance, "Rupert of Hentzau," the sequel to his "Prisoner of Zenda." One of the attractive features of the dramatization is the sustaining throughout the play of the love interest between Queen Flavia and the gallant Rassendyll. Mr. Hope has maintained this interest as he did in "The Prisoner of Zenda," adding to the pathos of its hopelessness by delicate touches which have served to heighten the interest in the final outcome. These scenes between the queen and Rassendyll are in strong contrast to the stirring action which surrounds them, and which makes "Rupert of Hentzau" one of the strongest of modern dramas.

Monte Jacob's "Gay Butterfly Burlesques" is the name of the attraction which will appear at the Myers Grand for one night, Monday, March 25. This company is without a doubt one of the strongest on the road. The curtain raiser is called "Life in the Metropolis," in which the entire company will appear, after which will be one of the strongest oltos ever given with a burlesque company, among whom may be mentioned the dashing singer, Miss Amy Nelson, Leslie & Curdy, black face comedians, the famous Flying Dobbels, Barth & Fleming, America's famous sketch artists; Gibson & Perry, popular comedians; and John A. West, musical comedian. The performance will conclude with the laughable burlesque entitled "Scenes in a Divorce Court," in which a score of pretty girls and comedians will be seen. Lovers of good burlesque should not fail to attend this attraction.

# PURE BLOOD

Necessary to Life.  
Vinol Makes it.

POOR BLOOD CAUSES ERUPTIONS AND WEAKNESS.

Vinol Makes Pure, Rich, Red Blood.

BECAUSE WE KNOW THIS WE GUARANTEE ITS ACTION.

Impoverished blood is a sure sign of internal disorders. We see every day too many people whose faces plainly show that there is something radically wrong.

We want all of our fellow-citizens to know of our splendid blood purifier and blood maker.

We refer to Vinol.

Vinol, as we have before stated, is a purely scientific preparation.

Vinol owes its virtue to the fact that it contains in a highly concentrated state the active curative principles, taken from the livers of live cods—the same elements that formerly were found in cod-liver oil, and which made it famous.

Vinol does not contain the grease or fat that characterized cod-liver oil and made it in many cases worthless.

Vinol acts upon every one of the great vital organs, and by invigorating and giving them strength, enables them to properly perform their functions.

Vinol's effect on the stomach is marvelous. It tones up this, the greatest of the organs of the body, and enables it to obtain from the food which is taken into it the necessary elements to create flesh and muscle tissue, bone structure and pure, rich, red blood.

We are in receipt of a letter from a Salvation Army woman which reads as follows:

"I took Vinol after a bad attack of grippe, and so much good did it do me that I persuaded my sister to take it. She was all tired out. Had no appetite and her blood was very poor. It did her as much good as it did me."—BETSY HABERSHAW, 718 River St., Fall River, Mass.

Won't you please come in and see us? We are always glad to extol the merits of Vinol.

We will give you back your money if you don't find Vinol will do all we claim it will. Could any one do more for you?

# Stomach Troubles In Spring

Are THAT BILIOUS FEELING, bad taste in the mouth, dull headache, sleeplessness, poor appetite.

No matter how careful you are about eating, everything you take into your stomach turns sour, causes distress, pains and unpleasant gases. In this condition it is only a question of time when you will have a well developed case of dyspepsia, or possibly bilious fever.

Don't you understand what these symptoms—these signals of distress—mean?

They are the cries of the stomach for help! It is being overworked. It needs the peculiar tonic qualities and digestive strength to be found only in Hood's Sarsaparilla. We have combined in this medicine the best stomach remedies known to the medical profession, and thousands of grateful letters telling its cures prove it to be the greatest medicine for all stomach troubles ever yet discovered. Try it this Spring.

Mrs. Shelly, who writes the following letter, is the wife of Rev. D. H. Shelly, for forty years in the ministry of the United Brethren. By her kindly nature and gentle disposition she has won hundreds of friends, who rejoice in her restoration to health:

"I suffered for years with sour stomach, sometimes called water brash. I could not drink either cold or warm water because it would sour on my stomach. I was bloated and weighed over 200 pounds. My blood did not circulate properly, and if others around me were warm I seemed to be freezing. I had numbness in my right side and arms. The physician advised a thorough course of treatment with a blood medicine in the spring, as at that

time my body was covered with scales caused by an affliction of dry eczema. Having commenced treatment with Hood's Sarsaparilla I continued taking the second bottle, after which I could sleep well. My digestion began to improve and I fell away in weight. I have little or no trouble from eczema now and my weight is 180 pounds, about normal. My food digests properly and I am not troubled with numbness. I am also able to drink cold water, a privilege which people do not fully appreciate until they are deprived of it. I think a great deal of Hood's Sarsaparilla and it certainly has effected very remarkable results." Mrs. D. H. SHELLY, 336 Yoeman Street, Ionia, Mich.

Every druggist sells Hood's Sarsaparilla. But be sure you get Hood's, and not a substitute. Hood's is Peculiar to Itself.

## POND'S EXTRACT

There is only ONE POND'S EXTRACT, and everybody knows its purity, strength and great medicinal value. Don't take the weak, watery Witch Hazel preparations represented to be "the same as" POND'S EXTRACT. They generally contain "wood alcohol," which irritates the skin, and, taken internally, is a deadly poison. Get genuine POND'S EXTRACT, sold ONLY in SEALED bottles, in BUFF wrappers.

**Controls Pain Bleeding and Inflammation**

## THE KEY TO HEALTH STRENGTH AND LONGEVITY IS THE STOMACH

**CONSTIPATION SICK HEADACHE INDIGESTION NERVOUSNESS**

All diseases are more or less comprised in the above four ailments, all of which have their origin in the Stomach. To cure each, any or all of them, begin right. Begin with the Stomach. Begin with Laxakola, the great tonic laxative. It speedsily and painlessly acts on the bowels, cleanses the stomach, stimulates the liver, corrects the kidneys, allays nervousness, assists digestion, while its marvelous tonic properties tone up the system while curing it, and speedily causes a natural and permanent condition of health.

Laxakola is the best Children's remedy in the world, and the only one that builds up the children's systems while acting as an all-around blood-purifier and tonic. It speedsily clears the congested tongue, checks colds and simple fevers, and promotes sleep. Children like it and ask for it. Mothers are its greatest friends; they use it and recommend it. All druggists, 25 and 50 cents, or free sample of The LAXAKOLA Company, 132 Nassau Street, New York.

Trade supplied by King's Pharmacy and People's Drug Store.

## GIVING AND RECEIVING.

This old world is full of people who stand around with open mouths and outstretched hands, filled with disappointment because the mouth is not filled, and the hand supplied, without an effort on their part. This class of people are to be found in every department of life. Men who have never contributed to the mind any thought, nor to the hand any skill, and women who are so shallow that the brain couldn't contain an idea of any magnitude, long enough to absorb it.

These people go through life failing to recognize the great truth that giving is necessary to receiving, and that it is wonderfully easy to rob ourselves.

Nature discovered this truth when nature was young and faithfully observes it. The thistle down blows across the field scattering little seeds that find a lodgment in the soil, and the kindly earth grasps it, and gives back in kind a thousand fold. The thistle contributed a grain and gathered a harvest. It might have argued that the soil was barren and the giving useless, but its mission is not to argue.

A little cloud gathers the mist from the marsh, and a flock of little clouds join it, and a little breeze tumbles the collection together, and drives it out over the parched field, and a little flash of lightning and a little jar of thunder unlocks the cloud and pours out the refreshing shower. Two or three forces of nature contributed a little to the enterprise, and the earth to which the farmers had contributed the seed, gave forth abundantly.

A little spring bubbles out from the side of the mountain, and trickles its way down through the roots and bushes, until joined by a companion, when with united forces they go singing towards the valley. With a shout of laughter they plunge over the last obstruction into the torrent, whose mission it is to receive the little contributions, and bear them with united forces to the bed of the river that winds its way through the country, receiving and giving pleasure and profit with lavish hand.

And so, all through the realm of nature, giving and receiving go hand in hand.

Humanity, with its selfishness and inventive genius, has vainly attempted to improve on nature in this regard.

There are some things in life that are perfect, and not susceptible of improvement, and nature is one of them. We find a good deal of fault with the weather, and with the climate, and with a lot of other things that we wouldn't be able to manage, and sometimes we swear about the unwise management of an All-wise Creator and Controller, but it is extremely fortunate for us and for humanity generally, that the reins of the universe are beyond human control.

There is a realm, however, where man reigns supreme, and where human destiny is largely the result of human will, and that is the realm of the mind and heart. Many of us go through life bankrupt in both departments, because we never contribute anything to the development of either.

Young people go out into life, and on into the years, carrying around in a healthy body, a mind so vacant and destitute of knowledge that you look at them twice to satisfy curiosity concerning their ignorance. They are good looking, but it is all on the surface.

Lift the cover from their mental organism, and evidences of poverty are apparent in every department. Talk to them about history, and the only history with which they are at all familiar, is their personal history, and that is quite monotonous by the time you get fairly into it.

Attempt to discuss current events, and the only response is an echo or complaint. Talk politics, and they will tell you that the other fellow can run politics, they are not inter-

ested and seldom take the trouble to vote.

The trouble with this class of people is that the mind, that great receptacle that God intended they should fill by constantly giving to it, has been neglected. It never received anything worth retaining, and so has nothing to give back. Vacant minds are like vacant houses. Useless and unoccupied. If neglected too long, like the vacant house, they go to seed, and become the abode of bats, and a lot of vagaries that are worse than phantoms. A bankrupt mind is worse than a bankrupt pocket book, because the latter may be replenished, while the former is a hopeless case.

A bankrupt heart is more deplorable than a bankrupt mind, and more common. Like the mind, it is a realm where the human will is supreme. It is not only possible, but a good deal easier to starve the heart than the mind. A man goes into life with his heart full of suspicion. He wouldn't trust God, for he doesn't know much about Him, and he wouldn't trust his brother man, because he believes the race to be dishonest. He has never given any love to humanity, and is cleverly hated in return. He seldom speaks a kindly word, and as seldom hears one. His face has been hard and sour so long that he has forgotten how to smile, and he is never greeted with a smile. His voice has lost the ring of happiness, and his ears never catch the strains of joyfulness and contentment. His eyes are so busy looking for the thistles and noxious weeds, that he misses the violets and daisies. His heart, is so sadly out of tune with the harmonies of life that the discords absorb it, and after closing and bolting the door against all good influences, he makes the long journey, and comes down to the end of the road, a hopeless bankrupt, because he has contributed nothing towards an inheritance.

The Master, a good many years ago, sent out a dozen men to do His work. Among the commissions with which they were entrusted was one, on giving and receiving. They had been the recipients of His love and thoughtfulness, in close companionship, and so He said to them, "Freely ye have received, freely give."

That injunction given so long ago to the little company, is recognized today more fully, and observed more completely than at any time in the world's history. While it is not possible for all of us to be Carnegies in wealth, it is possible for the most lowly follower to possess the same generous impulses, if prompted by a heart with a wide open door, ever ready to receive, and ever glad to give in return.

The world grows better as men and women everywhere cultivate the reciprocal spirit, giving as they receive, and receiving more abundantly.

## THE REPUBLICAN TICKET.

The republican ticket commends itself, and should receive the hearty endorsement of the party.

Mayor Richardson has been tested and not found wanting. He will continue to use his influence in the interests of city welfare.

City Clerk Badger has gained the confidence of the people to the extent that every ward endorsed him, which is a flattering comment.

S. C. Burnham is the right man in the right place on the school board. G. H. Davey is an old resident and a loyal party worker. He is entitled to continued recognition.

C. W. Reeder will make a good justice and will receive the support of the party.

The candidates for alderman: Mr. Rice, Dr. Mills, Mr. Gilkey, Mr. Saner and Mr. Appleby, are all well known citizens who enjoy the respect and confidence of the community.

The supervisors: Mr. Bowles, Mr. Paul, J. L. Bear, W. G. Palmer, and Fred J. Jeffries, are equally well known and respected.

Mr. Shearer, Mr. Cunningham and Mr. Lane are good men for school commissioners, and Mr. Cutts, Mr. Hitt and Mr. Williams will make efficient officers as constables.

The entire ticket should be elected, and will be if every republican does his duty on election day.

## FREE DISCUSSION.

The Gazette does not recognize anonymous letters. If the man who addressed the letter to the office, criticising the stand the paper has taken on city sewerage, will forward his name, the communication will be published cheerfully. The columns of the paper are open to free discussion of the sewerage, or any other question that is of interest to the city. Public questions of this kind are entitled to free and impartial discussion. There are always two sides to any question of moment, and both sides should be heard. If you don't agree with The Gazette on sewerage, the primary law, or any other proposition that the paper advances, don't be afraid to state objections over your signature. The paper will treat you well, and the public may be benefited by discussion.

Among the bills proposed in the legislature are found occasionally, a few which ought to be passed. Assembly bill No. 107 is one of these which will work a hardship to none, and a benefit to many. It provides for state supervision of country road improvement, in place of town supervision; and if passed will increase traffic, and consequently the business transacted by farmers, in neighboring towns.

Every true sportsman in the state is interested in seeing the bill killed that is now before the legislature, that permits the shooting of ducks in open water. The game laws of the state should be more stringent. Wisconsin lakes were at one time a famous resort for wild fowl, but loose legislation has driven the game out of the state. Unless better protection can be furnished, the mud hens will give us the go-by and the lakes will be destitute of everything in the way of game but German carp.

The threatened trouble between the Russian and English troops, has been averted by the commander-in-chief, who simply exercised his prerogative in requesting the troops to retire from the right of way. It is strange that two civilized nations are willing to allow so trivial a matter as this was, to bring their troops to the verge of firing on each other.

The Chinese upon hearing of the early departure of the American troops, have sent a petition from over 2,000 influential citizens asking them to remain in control, so as to give the Chinese justice. This is no mean eulogy when the conditions and circumstances are considered.

Russia is about to learn that the social discontent rife in its borders cannot be corrected by wholesale arrests or deportation. Russia today is killing the one chance any country has of perpetuity, and that is its educational system based upon freedom of speech.

Admiral Sampson has received a bounty check for \$12,000, much larger than that of Dewey and about six times that of Schley. It pays to be "refined" and a society sailor.

If it takes all night to pass the primary bill, how many nights will it take to get out of the wilderness if it ever becomes a law? Give it up, life is too short.

## HEAVY HEARTS AND DIRE FOREBODINGS

WHEN TWELFTH WISCONSIN  
LEFT IN SEPT. 1862.

War Relic of The Janesville Gazette  
Exhibited at the Wright Reception  
Held in This City Last Night—  
Scenes of the Departure of the  
Troops South.

At the reception given in honor of Henry T. Wright by his comrades of the Twelfth Wisconsin battery, last evening much interest was taken in examining a relic of war times which served to refreshen memories and to start the flow of reminiscent conversation.

This relic was a portion of The Janesville Gazette which contained an account of the departure for the scenes of war of the company of young men recruited by Lieut. E. G. Harlow for the Twelfth Wisconsin Battery. The article was published in September, 1862, and the clipping is the valued property of James Croft. It gives a vivid account of the scenes attending the departure of the recruits; the escort under the direction of Chief Engineer James Hemming and his assistants, John Belton and John C. Spencer; the presence, as escort, of Capt. Wemphers and Capt. Millmore's volunteer companies and tells of the heavy hearts and solemn forebodings which were the under current to the inspiring music and the waving flags.

The article contains a complete list of men who left the city as Lieut. Harlow's command. They were all from this city but three and the list is as follows:

E. G. Harlow,	W. F. Fox,
Marion Asmussen,	Joseph Whitman,
Orrin Hubbard,	C. B. Brown,
Daniel Skelly,	Wm. H. C. Johnson,
Thomas Croft,	A. V. Wickoff,
Wheeler S. Bowen,	Wm. H. Griffin,
L. D. Lister,	Sylvester St. John,
Alonzo Ribby,	Frank Wood,
H. A. Robinson,	S. P. Deunin,
S. G. Sisson,	John T. Norton,
Owen E. Newton,	W. D. Hemmingway,
Thomas H. Harrison,	H. Comstock, Rock,
W. E. Elmer,	T. G. Traut,
D. H. Brand,	Wm. Frickham,
Jerome Howland,	Ellis Shorbell,
Frederick Miller,	D. L. Noggle,
John T. Wilcox,	C. L. Noggle,
C. Fogle,	Wm. E. Ward,
John H. Saunders,	Henry Winkate,
James M. Anderson,	George Pierce,
Charles A. Wilmarrs,	Samuel L. Day,
S. C. Cheney,	H. B. Austin,
S. Eldredge,	H. B. Saxon,
A. F. Glascock,	James Plympton,

Reception to Henry T. Wright.  
Henry T. Wright, pay director of the United States navy, who is in the city, was given a reception last evening at W. H. Sargent post hall. He is on his way to China on official business, and stopped off to pay a visit to his brother, Josiah T. Wright, and his sister, Mrs. Edward Reger. Mr. Wright is an old Janesville boy, and a charter member of the W. H. Sargent post. He was a member of the 12th Wisconsin battery, and was known in that organization as the whistler. During the session last evening in prompt addresses were made by E. G. Harlow, Edward Reger, Jas. E. Croft, C. S. Jackson and others. Mr. Wright was much pleased with the reception tendered him by his old comrades in arms. His only regret was that he could not spend more time in the city.

## LIFE'S JOURNEY IS ENDED.

Mrs. Elizabeth Spencer Dead.  
Mrs. Elizabeth Spencer, the wife of John Spencer of Edgerton, died very suddenly at her home on Thursday morning. She was seventy-five years of age and death followed a few hours after a severe stroke of paralysis. Mrs. Spencer was well known in this city and had many friends here. One daughter, Miss Gertrude Spencer, is a teacher at the Adams school and a son, Charles Spencer, is also a resident of this city. Their mother had often visited here and was a lovely woman who enjoyed the esteem of all who knew her.

Funeral of Mrs. Mennicke.  
The funeral of Mrs. Robert Mennicke was held this morning at ten o'clock from St. Paul's Lutheran church. The services were conducted by the Rev. C. J. Koerner and were very impressive. The body was shipped to Watertown on the noon train. The interment will be in the cemetery in that city.

Funeral of Mrs. Cator.  
The funeral of the late Mrs. Hiram Cator was held yesterday afternoon at 3:30 o'clock from Trinity church, the Rev. J. A. M. Richey, officiating. A large number of the relatives and friends of the family were in attendance and many handsome floral offerings were made. The interment was at Oak Hill cemetery. The pall bearers were Chas. Price, E. W. Jones, David Drummond, James Flaherty, Frank Decker and Joseph Wood.

T. W. Goldin returned home this morning from a trip to Mineral Point.

## FORTY YOUNG MEN FROM MADISON

Forty young men with note books spent the morning inspecting the stable of horses belonging to Alexander Galbraith.

They were the members of the university short course agricultural class and are out on their annual tour of inspection. The horses shown were exceptionally good lot and kept the students busy getting all of the good points.

The class spent yesterday at the farm of McWay Brothers in the town of Johnstown and were shown as fine a lot of animals and made the judging contests very close.

The students expressed themselves as being highly pleased with their trip about the state. The willingness of the owners to exhibit their stock to them added much pleasure to the outing. They leave for Madison this afternoon over the Chicago, Milwaukee & St. Paul railroad, where the judging contests will be decided and the medals awarded to the winners.

## MODEL BILLIARD HALL.

Opened to the Public This Afternoon by W. C. Hart & Co.

At a cost of \$1,500 W. C. Hart & Co. have opened a billiard and pool hall in this city. This afternoon for the first time the public were admitted and nothing but words of praise were heard on all sides. This spacious and costly place of amusement is over W. C. Hart & Company's place of business.

The hall is richly furnished. The walls are papered red topped with a gold figured border. Linoleum covers the entire floor. Numerous Welshbach lights furnish perfect illumination. Two billiard and one pool table of the Brunswick-Blake-Collender Co.'s manufacture occupy the center of the hall. These tables are of English oak and are beautifully figured.

Four racks occupy the walls. One of these is for cues owned by private parties. The balls used are solid ivory.

Twenty comfortable oak finished chairs, each provided with a foot rest have been placed about the room for the accommodation of players and visitors. In fact Messrs. Hart & Co. have not overlooked a point that would add to the comfort of their guests.

Two entrances lead to the hall. One from the rear of Hart & Company's place and one from Milwaukee street.

## In the Circuit Court.

## PERISH IN THE BURNING HOME

Two Sons of John Holling Dead and Seven Others Hurt.

Rock Island, Ill., March 23.—William and Edward Holling, aged 5 and 3 years, perished, and the parents, Mr. and Mrs. John Holling, four children and Mrs. Holling's father, John Seebrecht, were injured in the burning of the family residence on John Albrecht's farm, four miles west of Milan, on Big island, at 5 o'clock a. m.

The injured are at St. Anthony's hospital. The house, a one and a half story frame, was burned to the ground. The fire was caused by a defective stovepipe and broke out shortly after Holling had started the kitchen fire.

Realizing his inability to cope with the flames Holling awoke his sleeping family. Smoke and flames cut off escape by stairs and all were compelled to jump from the upstairs window. William and Edward, who occupied the same bed, could not be reached by rescuers. Their bodies were found in the ruins. Mrs. Holling and a 12-year-old boy may die.

Mrs. O. E. VanDusen of Kilbourn City, Wis., was afflicted with stomach trouble and constipation for a long time. She says, "I have tried many preparations but none have done me the good that Chamberlain's Stomach and Liver Tablets have." These tablets are for sale at People's drugstore & King's Pharmacy. Price 25 cents. Samples, free.

## THE FUR THIEVES HAVE A HEARING

The examination of James Evans and George Cone charged with stealing a sack of furs from the rear of the American Express office on March 9th and selling them to D. A. Bittel of Beloit was called in the Municipal court this morning.

District Attorney Jackson appeared for the state and C. E. Pierce for the defense. On motion of District Attorney Jackson the complaint against Cone was dismissed but he was immediately arrested on a new warrant. The new complaint was practically the same as the former one but alleged in addition that this was a second offense, Cone having been sent up from Beloit by Justice Booth in February for a term of forty days.

C. P. McLean, agent of the American express company, D. A. Bittel of Beloit, who bought the furs and L. Kennedy of this city to whom the furs were consigned were sworn on the part of the state. At the time of going to press the examination was still in progress. The case against Evans was continued by consent until Monday, March 25.

"The pitcher that goes often to the well is broken at last." There's a world of wisdom in that familiar proverb, and a sound application of it to disease, especially to such familiar forms of disease as coughs and colds. Singularly enough the very thing that ought to cause alarm is given as excuse for a feeling of safety. "It's nothing; only a cough." "I've had it before." The fact that a cough recurs periodically should be warning enough to take it in time, for the most serious and disastrous of all maladies begins with a cough.

The use of Dr. Pierce's Golden Medical Discovery not only stops the cough but cures the cause. It cures obstinate, deep-seated coughs, bronchitis, weak lungs, hemorrhages, diseases which if neglected or unskillfully treated find a fatal termination in consumption. Accept no substitute for "Golden Medical Discovery." There is no other medicine "just as good" for weak lungs.

"I was very sick indeed," writes Mrs. Mollie Jacobs, of Belton, Kent Co., Delaware, "and our family doctor said I had consumption. I thought I must die soon for I felt so bad. I had a bad cough, spit blood, was very short of breath, in fact could hardly get my breath at all some times. I had pains in my chest and right lung, also had dyspepsia. Before I took your 'Golden Medical Discovery' and 'Pleasant Pellets' I was so weak I could not sweep a room, and now I can do a small washing, and I feel like a new person. I believe that the Lord and your medicine have saved my life. I was sick over two years. I took thirteen bottles of the 'Golden Medical Discovery,' and four vials of Dr. Pierce's Pellets."

Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

## CASING WEATHER RETURNED AGAIN

Most All of Hanging Tobacco Has Been Removed From the Poles—Bad Roads Curtail Riding.

The breaking up of the country roads has curtailed the amount of riding in the country districts in search of last year's crop the past week and yet it is believed that a fair amount of trading is being done, says the Wisconsin Tobacco Reporter.

C. F. Tallard is credited with securing about three hundred acres of Vernon county tobacco at prices considerably under the early sales. A good deal of export and low grade leaf has been picked up of late, something like 1,000 acres being contracted for by the agents of C. L. Cullen at prices ranging from three to five cents and this firm has opened several warehouses for the purpose of handling this class of goods. The buying of the past two weeks has probably removed half of the unsold fraction of the crop, which seems to indicate that the damage scare has little to do in curtailing the movement.

The market for the old leaf continues quiet and the demands are moderate. The only sales of importance are 1,000cs of '98 and '99 goods by Frank Baines to New York parties, including \$35cs of Bs. and 150cs of '99 by C. L. Vulton. John Luken sold 45cs of '99 to Carle at 9 and 7 cents.

Casing weather returned again during the week and it is quite probable that more of the hanging tobacco will be removed from the poles. It is estimated that 2,500 acres of the Vernon county crop was still hanging in the sheds the beginning of the week and suspended operations in a large number of warehouses to await the coming down of this tobacco.

Deliveries come struggling in at the packing points but the great bulk of the leaf ready for market has been delivered.

The shipments out of storage reach a total of 15 car loads, 712 cases, for the week past from this station to all points.

Since last reports 740 cs of cigar leaf were exported from New York.

## MODIFICATIONS ARE STRICT

China Will Station Troops in Manchuria.

## RUSSIA GETS ITS DEMANDS.

Russians to Do Their Own Guarding of Their Railway Lines in China—British Not Satisfied with These Arrangements, but Must Submit.

London, March 23.—The Shanghai correspondent of the Times says he believes that the Manchurian convention has been modified in the sense of allowing China to station troops in Manchuria, their number and location to be arranged between China and Russia. Undesirable officials, instead of being degraded, will be transferred. The cession of Kinchau to Russia is omitted, and the restricting of the leasing of land to foreigners to Newchwang is withdrawn. A fresh article has been inserted to the effect that China having given the Shanhaiwan-Shinminting railway as security for a foreign loan she will make reparation to Russia by agreeing to the construction of a railway from the boundary of Chihli as far as the great wall. This railway, like the other Manchurian Russo-Chinese lines, will be guarded by Russians.

The St. Petersburg correspondent of the Times says that well informed persons confirm the statement that the European powers with the United States and Japan have made representations deprecating the conclusion of a separate agreement between Russia and China while negotiations are proceeding with the plenipotentiaries of China.

The Times correspondent adds that the Marquis of Lansdowne was not wholly satisfied with Count Lamsdorff's verbal assurances to Sir Charles Scott, the British ambassador at St. Petersburg, regarding the Manchurian modus vivendi, and asked the ambassador to request a copy of the draft of the convention. Count Lamsdorff angrily and peremptorily refused to furnish it. Count Lamsdorff is also indignant with Li Hung Chang for disclosing the terms of the agreement. It is expected that the modified convention will be signed on March 26.

### THE REAL ISSUE IN CHINA.

Great Britain Has Secretly Secured Concessions.

Chicago, March 23.—A special dispatch to the American from James Creelman, the noted Washington correspondent is as follows:

Washington, March 23.—While Great Britain is frantically calling upon the United States to assist in the attempt to arrest the great tidal movement of Russia in China, while British and Russian troops face each other in Tientsin, while Japan is concentrating her warships on the Korean coast to embarrass Russia—and a single rifle shot may be the signal for the mightiest and bloodiest conflict in history—the key of the British interest in their vast scene of conquest and intrigue is kept carefully out of sight.

In the archives of the state department is a report from Mr. Ragsdale, the American consul at Tientsin, which shows that a British syndicate headed by the Rothschilds has secured from the Chinese government concessions so vast as to threaten the foreign markets in Asia of all countries. These concessions are almost beyond belief, yet the facts were officially reported in detail to our government three years ago.

The Pekin syndicate of London has wrung from China concessions amounting to 71,000 square miles of the provinces of Shan Si and Honan. This includes an unbroken anthracite coal vein extending through 3,500 square miles. It also includes immense tracts of petroleum and iron.

### British Have Rich Prize.

The British have in their hands the richest prize in the whole world. Minister Wu has within a few days declared in public that the coal fields of Shan Si, which are now in control of the Pekin syndicate, are rich enough to supply the world with the finest coal for 3,000 years at the present rate of consumption.

Not only have the British capitalists secured this key to the whole interior industry and trade of China, but they also have an almost unlimited right to build branch railways connecting these coal, iron and petroleum fields with trunk railways and rivers.

They have planned lines of transportation into the Yangtse Kiang Valley which will enable them to convert the cheap labor of the teeming Chinese millions into an economic peril to every other country.

Not a word has been uttered on this subject in the present crisis. Yet the Russanizing of Manchuria is a paltry and irrelevant matter compared with this mighty British plan for the interior subjugation of China.

The quarrel at Tientsin is a mere symptom. There is nothing substantial in dispute. It is a matter of international etiquette.

Turning Point in History. While the British are trying to arouse in the people of America a feeling of hostility to Russia, they are keeping out of sight the stupendous scheme of industrial and commercial conquest organized and owned by the great Pekin syndicate of London.

This is a tremendous hour in history. The whole future economics of the human race seem to hinge upon events in gray, old, feeble China. Great Britain shrieks, "Stop, thief."

at Russia, puffs up and intensifies the vanity and greed of Japan, and seeks to secure the support of the United States, while she herself has secured the very heart of the real wealth of China and is preparing to drive all competitors to destruction by her monopoly of thousands and thousands of miles of coal, iron and petroleum in Shan Si and Honan, which the cheap labor of China is to turn against all rivals.

### Troops Taken from Tract.

Pekin, March 23.—The troops on both sides of the disputed land at Tientsin have been withdrawn, and all danger of a fracas is ended.

### Japan Prepared for War.

Yokohama, March 23.—The Japanese press, when discussing the Manchurian convention, recognizes the difficulties in the present position, and admits that, whatever Japan does, she must be prepared to do war.

### CALLS IT UNSTATSMANLIKE.

Terms Dictated by Mr. Chamberlain Criticized by English Radicals.

London, March 23.—The conservative and radical parties of England hold violently antagonistic opinions concerning the merits of Mr. Chamberlain's peace proposals to Gen. Botha. The former declare that these proposals are judicious and good-tempered and magnanimous. The radicals assert that they are inadequate, ambiguous and unstatesmanlike. The radical sentiment regarding the peace correspondence finds a fairly correct mouthpiece in Leonard Courtney's "stop-the-war" committee. S. H. Swinn, secretary of the committee, said: "Sir Alfred Milner's proposal fixing the fate of the rebels was alone sufficient to condemn the government's program. He would doom to exile the population of the Transvaal and Orange colony, which would but perpetuate traditions of enmity to the British flag. Not only this, but he would make the Cape Colony and Natal relatives and friends of those exiles secret haters of the government under which they lived. It was foolish of Mr. Chamberlain to quibble over a million or so of money designed to promote the cause of peace, when the war is costing us £1,500,000 (\$7,500,000) a week. Eventually we shall be compelled to grant a universal amnesty, and to reduce our proposals concerning the self-governing rights of the Boers to much more definite language than we have yet employed. We cannot force terms upon the burghers and carefully guard our own interests while leaving theirs to a phraseology capable of almost limitless contraction or expansion."

### Alleged Plot Against Czar.

St. Petersburg, March 23.—Everything goes to show the existence of a gigantic nihilist plot in Russia, according to a rumor. Martial law in all but name exists in St. Petersburg, while Moscow, Warsaw, Kieff and other cities have been publicly proclaimed to be in a state of siege. Nicholas II. has fled from his capital and is now sequestered in his imperial palace at Gatchina, thirty miles from St. Petersburg, but despite all possible precautions treachery in his immediate entourage is feared.

Headache often results from a disordered condition of the stomach and constipation of the bowels. A dose or two of Chamberlain's Stomach and Liver Tablets will correct these disorders and cure the headache. Sold by People's drugstore & King's Pharmacy.

## THE DISCOVERER OF Lydia E. Pinkham's Vegetable Compound The Great Woman's Remedy for Woman's Ills.

No other medicine in the world has received such widespread and unqualified endorsement.

No other medicine has such a record of cures of female troubles or such hosts of grateful friends.

Do not be persuaded that any other medicine is just as good. Any dealer who asks you to buy something else when you go into his store purposely to buy Lydia E. Pinkham's Vegetable Compound, has no interest in your case. He is merely trying to sell you something on which he can make a larger profit. He does not care whether you get well or not, so long as he can make a little more money out of your sickness. If he wished you well he would without hesitation hand you the medicine you ask for, and which he knows is the best woman's medicine in the world.

Follow the record of this medicine, and remember that these thousands of cures of women whose letters are constantly printed in this paper were not brought about by "something else," but by **Lydia E. Pinkham's Vegetable Compound, The Great Woman's Remedy for Woman's Ills.**

Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want—a cure. Moral—Stick to the medicine that you **know** is Best.

When a medicine has been successful in restoring to health more than a million women, you cannot well say without trying it, "I do not believe it will help me." If you are ill, do not hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice. It is free and helpful.

## BEYOND DOUBT.

These Facts Must Convince Every Janesville Reader.

That which follows is the experience of a resident of Janesville. Incredulity cannot exist about the statement because it can easily be investigated.

Mr. H. P. Hanson, of 103 Pleasant St. engineer, employed at the Janesville Machine Co., says: "Doan's Kidney Pills did me all the good that could be expected and I recommend them to any one who may be troubled with a lame back or any kidney disorder. After procuring them at the People's drug store and taking them I felt better, slept better, my back did not ache like it did, and I did not rise in the morning with a lame and sore back. I suffered from these symptoms for four or five years and I was more than pleased at the results obtained from the use of Doan's Kidney Pills."

Twice Proven.  
From the Vindicator, Rutherfordton, N. C.

The editor of the Vindicator has had occasion to test the efficacy of Chamberlain's Pain Balm twice with the most remarkable results in each case. First, with rheumatism in the shoulder from which he suffered excruciating pain for ten days, which was relieved with two applications of Pain Balm, rubbing the parts afflicted and realizing instant benefit and entire relief in a very short time. Second, in rheumatism in thigh joint, almost prostrating him with severe pain, which was relieved by two applications, rubbing with the liniment on retiring at night, and getting up free from pain. For sale by People's Drug Co. and King's pharmacy.

Will Be Hanged Publicly.  
Memphis, Tenn., March 23.—A special says that the Arkansas legislature today passed a bill making the execution of persons guilty of criminal assault public hereafter. Heretofore only a few witnesses were allowed. The passage of the new law is due to the strong demand of the people of Arkadelphia for a public hanging next Saturday of John Westley, a negro convicted of assaulting Miss Josie Cleveland a few weeks ago.

Blown Up by Nitro-Glycerin.  
Pittsburg, March 23.—Just before noon yesterday two employees of a contracting firm engaged in excavating a sewer on Stenben street, Elliott-boro, a suburb of Pittsburg, were probably fatally injured by the explosion of a can of nitro-glycerin. The men were carrying the explosive into the excavation and dropped it with the above result.

## NOVELTY IN LOCAL SOCIAL EVENTS

A novelty in local social events was introduced last evening by Miss Agnes Shearer who entertained a small company of friends at a buffet luncheon at her home, 103 Mineral Point avenue. Any departure from the customary form of entertaining is always sure of a warm welcome and Miss Shearer's unique party made a decided hit with her guests.

The entire evening was characterized with that perfect informality which always adds zest to enjoyment. Progressive cinch was played and the game was carried on merrily at three tables. The tally cards were unique and were retained by the guests as souvenirs of the occasion. The cards represented clover leaves and each leaflet of the trefle bore a dainty pen and ink sketch of a Gibson girl, the handiwork of Miss Anna Shearer, who has been attending the Art Institute at Chicago.

When the signal sounded at the end of each round of cinch, instead of the winners progressing to the table above as is customary, the entire company repaired to the dining room where the long table, handsome in its rich service of China, cut glass and silver, was laden with an array of tempting eatables. The guests waited upon themselves, making their own choice and having a merry time as they partook of the dainty refreshments. They then returned to the card tables and proceeded with the game, each round of which was followed by a visit to the dining room. After the last hand at cards had been played coffee was served.

Later Prof. Gaskins sang several selections which added greatly to the evening's pleasure. There was other music and dancing and the hour which made good nights imperative came altogether too soon.

While I was going with my other children I was compelled to stay in bed for days at a time, but this time I have taken Wine of Cardui and Theodor's Black-Draught and have been able to do all my housework without any trouble. I am expecting every day to be confined. My husband thinks Wine of Cardui is the best medicine in the world. He takes a dose of Theodor's Black-Draught every night and gives some to the children. He has not lost a day from work this year. He tells his friends about your wonderful medicines and I tell my lady friends to use your Wine of Cardui.  
Mrs. GEORGIA LEE.

**WINE OF CARDUI**  
There are thousands of women who shrink in terror at the thought of the baby's coming. But childbirth is one of the workings of Nature and it was not intended to imply torture and agony to the heroic mothers of the race. The woman who suffers torture during pregnancy and at childbirth has usually, by some indiscretion, injured the organs which make her a woman. Neglect of menstrual irregularities leads to ovarian pains, falling of the womb and leucorrhoea, and the period of pregnancy is necessarily distressing under those conditions. Wine of Cardui will regulate the menstrual function perfectly and eventually make the generative organs strong and healthy. Pregnancy and childbirth have no terrors for the woman who takes this pure Wine. A strong healthy womb will bring its precious burden to maturity with little or no pain. A healthy woman need not fear childbirth. Wine of Cardui completely cures all these troubles familiarly known as "female diseases" and equips the sensitive generative organs for pregnancy and childbirth. It will save any mother much pain and suffering. All druggists sell \$1.00 bottles.
